SUMMARY

Motivated and adaptable individual with experience in customer service, tutoring, and full-stack web development. Strong communication, problem-solving, and learning abilities, with a track record of supporting users, handling operations, and completing technical projects. Open to opportunities where I can contribute effectively, continue developing my skills, and take on new challenges.

TECHNICAL SKILLS

- Python, JavaScript
- HTML, CSS, React.js, Node.js
- Express.js
- MongoDB
- Git, REST APIs, Vercel, Render

PROFESSIONAL EXPERIENCE

Mobot — Customer Service Officer (Jul 2025 – Present)

- Manage after-sales service and resolve customer issues efficiently.
- Handle disputes through clear communication while maintaining customer satisfaction.
- Coordinate with technical teams for troubleshooting and updates.
- Maintain case documentation and improve workflow processes.

Self-Employed — Full-Time Home Tutor (Feb 2024 – Jun 2025)

- Taught primary mathematics and cultivated self-directed learning habits.
- Collaborated with parents to customise learning plans.
- Introduced basic coding concepts to inspire early tech interest.

Singapore Professional Immigration Consultancy — Immigration Writer (Aug 2023 – Mar 2024)

- Prepared personalised PR and citizenship documents for 100+ clients.
- Drafted compelling cover letters aligned with immigration criteria.

Deloitte Tax Solutions — Immigration Administrator (Oct 2021 – Jul 2023)

- Generated reports and drafted work passes.
- Maintained documentation for audits and compliance purposes.

PROJECTS

Tutors Connect

- Full-stack matching platform for tutors and parents.
- Front End: React, Fetch API, Vercel
- Back End: Node.js, Express.js, MongoDB, Render
- Developed entire app from planning to deployment.
